

"No Lookie Card Game"

A good game for 4 people to play. Play for yourself (no partners).

Object: To go out with the fewest points. Play 9 hands.

Use 1 regular deck of cards with 2 jokers.

Deal: 3 cards down to each player. Players may look at these cards. In addition deal 2 more cards face down to each player. Do not look at these cards. When finished dealing, place remaining cards in middle of table (Draw pile). Turn a card up (Discard pile).

When it is your turn, you may draw a card from the draw pile or the discard pile. You must discard each time using either a card in your hand or one of the face down cards. You must always have 5 cards.

Going out: When you think you have the lowest score, Knock. You cannot knock until the 2 face cards have been discarded. You cannot draw if you knock. All players get one more turn.
