

65 Game

This game uses a deck of card for each couple playing. It can be played with odd numbers of persons too. It is played thru 13 rounds or hands.

First round is played with 3 cards dealt. Jokers and 3's are wild.

Second hand 4 cards are dealt, jokers and 4's are wild

Third hand 5 cards are dealt with jokers and 5's wild, etc., through 13's cards being dealt for thirteenth hand. Thirteenth round jokers and King's are wild.

A book consist of at least three cards, example, three 2's, three 5's (not in the same suite).

Runs consist of a sequence of at least three card of the same suite. Example, 7, 8, 9 of hearts.

Aces are considered a number 1.

In order to win a round, a person must have books or runs with no extra card left in their hand. If person has met this requirement and has not picked up a card, he says "Play Me" and skips his draw. Everyone else has one more chance to pick-up a card. Then the person that said, "Play Me", lays down his hand. All cards in his hand must consist of a run and/or book. The person starting on the left of "Play Me", can play on Play Me cards or lay down their own books or runs. Any cards not playable are counted against them. Ten's thru Kings count 10 points. Aces count 1 and rest count face value.

Person with lowest point total after 13 hands, wins the game.
